

ARCH VIEW COMPANY

شركة ارك فيو للاستشارات المهنية

ABOUT US

01. Our vision

At Arch view engineering consulting, we look forward to working within an integrated engineering system that keeps pace with the rapid developments in Saudi Arabia and its Vision 2030 . Arch View Center is a continuation of the engineering system started by the founder in 1981, while expanding the horizons of the engineering system and its specialties to keep pace with rapid scientific, cultural and demographic developments, modern building systems and the Saudi Building Code .

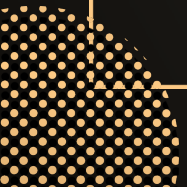

02. Our goal

Work scientifically, methodically and thoughtfully to keep pace with the global development and reach the universality in all fields and the resulting activities and functions and the reflection of their impact on the nature, privacy and style of architecture of the kingdom of Saudi Arabia, and the resulting scientific revolution in the field of building systems and materials, methods and methods of construction .

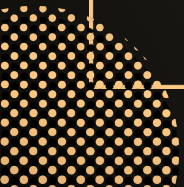

03. Specialties

Arch view's strategy is to bring out any engineering work in an integrated manner by providing most of the engineering disciplines in the core areas (architectural, structural, health, mechanical and electrical), as well as the complementary engineering areas of fire control systems and sustainability in architecture, town planning, infrastructure and.....Etc.).

03. Team work

Arch View team members are carefully selected with high scientific qualifications, extensive experience, and complete knowledge of building systems and Saudi building code, in order to provide high quality in all engineering outputs and save time and money on owners, Arch View team is a combination of local and international expertise by participating in several local and international projects (USA, China, Egypt, UAEEtc .
